

QUESTIONS TO ASK BEFORE HIRING A CONTRACTOR FOR YOUR BUILDING OR REMODELING PROJECT

Tips from the Builders Association of Minnesota (BAM)

- How long have you been a contractor?
- Do you have references?
- Do you have liability insurance?
- Have any complaints been filed against you?
- What is your role in the company? Will you be my contact on this project or will it be someone else?
- Do you participate in a local trade association (e.g., BAM)?
- Are you involved in any local civic organizations (e.g., chamber of commerce)?

Your building or remodeling project is important. You want the highest quality product, which you can only expect from licensed contractors. Talk to prospective contractors to find the person who is right for your project - and turn to BAM for recommended licensed contractors in your area.
